

Orbit 110

1080P Full HD Dash Camera

The Orbit 110 is a great starter dash cam to equip your vehicle with. It is designed with a sleek and compact look to keep your windshield space clear. The 1.5" LCD screen allows for easy review of recordings. 1080P high definition recording captures clear footage even while travelling at high speeds. A CMOS sensor is also built-in, rendering a clearer images in both day and night conditions. The Orbit 110 is also equipped with an internal G-sensor can also sense a collision and automatically lock the current recording, so it cannot be loop recorded over. An 8GB microSD card is included, so once installed, the Orbit 110 can begin recording immediately.

Full HD 1080P

Records in 1080p full HD resolution. This will smoothly capture clear video in fast moving scenes.

Compact Design

Experience a high performance dashcam in a sleek, space-saving ,and discreet design. Compact size meets all needs for daily recording purpose.

120° Viewing Angle

With a wider field of vision, you'll be able to capture more lanes of the road. You won't need to worry about missing those small details on the road such as license plates.

G-Sensor for Emergency File Saving

The G-sensor is a gravity sensor that will sense any collision, swerve, or hard braking, and automatically lock the current video so it cannot be loop recorded over.

Supports 32GB, 8GB MicroSD Card Included

A 8GB microSD card is included in the package, so you'll be set to install the Orbit 110 in your car and start recording. This device supports up to 32GB of external storage, around 5 hours of recording at 1080p.

Specifications

Resolution: 1080p

Image Sensor: CMOS Sensor

Display: 1.5" TFT

FOV: 120° Wide Angle Lens

G-Sensor: Yes

Video Format: .avi

Storage Memory: 8GB included (Supports up to 32GB)

Mount: Suction Cup

Interface: Mini-USB

Unit Weight: 0.08lbs

Unit Dimensions: 2.3" x 2.25" x 1.25"

Power Supply: 110mAh Li-ion battery embedded

Operating Temperature: 14°F~149°F/ -10°C~65°
