

# Orbit C100

7" Infotainment Display compatible with  
Apple Car Play and Android Auto

Works with:

Celebrate automotive connectivity with the MyGEKOgear Orbit C100, a cutting-edge 7-inch display seamlessly integrated with Apple CarPlay and Android Auto. This sleek and sophisticated device transforms your car into a smart hub, allowing you to effortlessly access your favorite apps, navigation, and entertainment directly from the vibrant touchscreen. Equipped with both WiFi and Bluetooth capabilities, the Orbit C100 ensures a seamless and wireless connection to your smartphone, providing hands-free communication with phone calls and message replays, Navigation, music streaming, and access to a world of information while on the road. The 7-inch display offers crystal-clear visuals, enhancing your driving experience with intuitive controls and a user-friendly interface.

## Works Wirelessly with Apple CarPlay or Android Auto

Experience wireless Apple CarPlay or Android Auto for effortless access to music, maps, calls, notifications, messages, and more while driving hands-free.

## Hands Free With Voice Control

Revolutionize your driving experience with the power of voice control using Siri or Google Assistant. Take command without lifting a finger as you effortlessly navigate through apps, make calls, replay or send messages, initiate GPS Navigation and control various functions—all through intuitive and responsive voice commands.

## Built-in Bluetooth Music Function

Compatible with Bluetooth music, you can connect your phone with this portable car stereo via Bluetooth to listen your favorite music, audiobooks, and podcasts without having to switch between different devices or carry around CDs or USB drives.

## Multiple Stereo Output

The device includes built-in speakers for audio output, alongside Bluetooth connectivity, FM transmission, and AUX output.

## 7" IPS Touchscreen

Equipped with a 7"IPS touchscreen, it simplifies navigation, fostering seamless interaction for enhanced usability and accessibility of the device.
